

# 5 WAYS TO OPTIMIZE YOUR PRINT WORKFLOW IN 2025

## CUT COSTS WITH MANAGED PRINT SERVICES (MPS)

1

### SumnerOne MPS Solutions:

- Managed Print Services from SumnerOne provide real-time monitoring of printing devices, streamlining workflows and reducing unnecessary expenses.

### Proactive Maintenance:

- Reduce downtime with predictive maintenance services, ensuring devices like Canon, Ricoh, and Konica Minolta printers are always running efficiently.

## GO GREEN WITH ECO-FRIENDLY PRINTING

2

### Energy-Efficient Printers:

- Choose energy-efficient options from SumnerOne's range of printers, which minimize power consumption while maintaining high-quality output.

### Recycling Programs:

- Participate in SumnerOne's recycling initiatives for toner cartridges and other supplies to reduce environmental impact.

## BOOST EFFICIENCY WITH WORKFLOW AUTOMATION

3

### Software Integration:

- Utilize document management solutions such as DocuWare and uniFLOW, offered by SumnerOne, to automate repetitive tasks and streamline workflows.

### Cloud Printing Solutions:

- Embrace cloud-based printing for flexible and secure access to documents from anywhere, optimizing your remote and hybrid work environments.

## OFFER PERSONALIZED, ON-DEMAND PRINTING

4

### Variable Data Printing (VDP):

- Utilize VDP tools integrated with SumnerOne's digital printing solutions to create personalized marketing materials that resonate with individual customers.

### Production Printing Systems:

- Leverage high-speed production printers like those from Ricoh and Canon for on-demand printing with minimal waste and rapid turnaround.

## EMBRACE INTERACTIVE AND DIGITAL PRINT SOLUTIONS

5

### Interactive Print Features:

- SumnerOne supports advanced printing technologies that integrate with augmented reality (AR) platforms, adding a digital layer to traditional prints.

### Wide-Format Printers:

- For businesses in design and signage, SumnerOne's wide-format printers produce vibrant, high-quality visuals that enhance customer engagement.
